Professional Summary

IT support professional with hands-on knowledge of hardware, networking, operating systems, cloud technologies, user support, and a customer service background. Experienced with Azure, Active Directory, DNS, VPNs, and ticketing systems. Known for strong communication, customer service, and troubleshooting skills, with the ability to translate technical issues into practical solutions.

IT Helpdesk Education

CourseCareers Information Technology Certificate | CourseCareers — October 2026

25-hour training for practical experience with computer networking, cybersecurity, troubleshooting, cloud computing, and system administration. Hands-on training with osTicket, sandbox environments in Microsoft Azure, cloud-based firewalls (network security groups), Active Directory, DNS, file-sharing and permissions.

Experience

Log(N) Pacific

IT Support Analyst (Intern) — July 2026 - October 2026

- Provisioned and troubleshot Azure Virtual Machines (VMs), VNets, and Network Security Groups (firewalls)
- Provided support for the setup, configuration, and troubleshooting of the osTicket ticketing system/platform
- Administered Active Directory basics, including user creation, role assignment, and security group management
- Created and managed file share permissions on Windows Server to maintain data security and accessibility
- Diagnosed and resolved basic network issues to minimize downtime and improve overall network reliability
- Built genuine relationships and trust with end users, taking the time to understand their concerns and providing personalized support that made them feel heard, valued, and comfortable seeking assistance.

Cricket Wireless — **Long Beach, CA**

Customer Service and Sales Associate — April 2026 - Present

- Resolved an average of 10+ tickets per day, troubleshooting mobile devices, software, and network bill pay issues to achieve a 90% first-contact resolution rate.
- Configured and deployed over 22 devices per month, ensuring 100% user readiness within established SLA targets.
- Achieved a 95% customer satisfaction rating by diagnosing issues accurately and delivering easy-to-follow solutions.
- Built customer trust by simplifying technical concepts, delivering personalized support, and balancing troubleshooting with sales responsibilities.

Education

Baldwin Park High School — October 2022

High School Diploma | General Studies
